

Module title:

## **PROMOTING COLLABORATION FOR COMMUNITY HEALTH AND DEVELOPMENT**

### Learning Objectives

1. Discuss the importance of collaborative practice in community health and development.
2. Analyze the practice of collaboration in the local health system and its determinants.
3. Design strategies that would promote collaborative practice.

### Instructions for Session 1 (for FCH 260.2 Day 02)

1. Read the article “The Need for Collaborative Competencies in Community health and Development”.
2. Recall your most memorable and positive team experience.

Go to [menti.com](https://www.menti.com) and use the code 37207577 to answer the questions. You may also scan the QR code to answer the guide questions. Please do so by 12:45PM of FCH 260.2 Day 02.

For those who are unable to access the above links, you may write down your answers in metacards to these questions

- a. Using 2-3 keywords, describe why you consider the experience to be “positive”?
  - b. What were the factors that led to a “positive” team experience? (you can give up to 3 answers)
3. Attend the zoom session at 1PM with Dr. Louricha Opina-Tan. Please use the link provided.

## Instructions for Session 2 (For FCH 260.2 Day 05)

1. Divide the block into 4 small groups. Schedule group meeting/s to work on the following:

Assignment #1: Based on the required reading provided:

- a. Give 3 questions you can use to assess each classification of determinants discussed in the article (interactional, organizational and systemic).
- b. If you are a Municipal Health Officer, which of the three classifications of determinants will you try to influence to have a well-performing health team?

*Required reading: L. San Martin-Rodriguez, M. Beaulieu, D. D'Amour and M. Ferrada-Videla (2005). The determinants of successful collaboration: A review of theoretical and empirical studies. Journal of Interprofessional Care, Supplement 1: 132-147.*

Assignment #2. Prepare a presentation to discuss the "strategy" assigned to your group. Your literature search can include reviews, manuals and other credible references for the given topic.

Discussion Points:

- a. Brief description of the strategy
- b. How can the strategy promote collaborative practice in the health team?
- c. How can you operationalize the strategy in the Rural Health Unit if you are the Municipal Health Officer?

*List of strategies (\*Block liaison officer to assign 1 strategy per group)*

- a. *Interprofessional education*
- b. *Use of Guidelines or Standard Operating Procedures*
- c. *Providing resources that promote collaboration in the workplace*
- d. *Leadership styles that support collaboration*

2. Each group will prepare a 15-minute presentation for assignments 1 and 2.
3. Attend the zoom session at 1PM with Dr. Louricha Opina-Tan. Please use the link provided.
