

### Rubrics for Water Sanitation

Criteria	Indicator	YES 10	SOMEHOW 5	NO 0	Remarks
Water sources	Differentiated the three sources of water correctly				
Levels of water facilities	Correctly explained the differences of each level of water facilities				
Water treatment methods	Explained all water treatment methods correctly				
Characteristics and properties of water	Explained all the properties of water correctly				
Water related diseases	Differentiated correctly the different water related diseases				
Water-related diseases	Cited correct examples for each water related diseases				
Laws related to water sanitation	Explained the policies/ laws related to the topic				
Importance of water sanitation	Explained the importance of water sanitation in relation to health				

### Rubrics for Proper Excreta and Sewage Disposal

Criteria	Indicator	YES 10	SOMEHOW 5	NO 0	Remarks
Importance of proper excreta and sewage disposal	Correctly discussed the importance of the proper excreta and sewage disposal in relation to health				
Levels of toilet facilities	Correctly differentiated the various toilet facilities and gave concrete examples				
Types of different toilet facilities	Correctly discussed all the different types of toilet facilities				
Difference of disposal system in urban and communities	Differentiated the difference of disposal system				
Laws related to Proper Excreta and Sewage Disposal	Explained the policies/ laws related to the topic				

### Rubrics for Solid Waste Management

Criteria	Indicator	YES 10	SOMEHOW 5	NO 0	Remarks
Major sources and composition of solid wastes	Discussed all the major sources of solid wastes with correct explanation				
Processes in solid waste	Discussed all the processes involved in solid waste management with the correct explanation				
Different ways of garbage disposal	Clearly discussed each way of garbage disposal				
Actions taken to address the poor solid waste management	Discussed thoroughly the actions taken /being implemented to address poor solid waste management				
Laws related to Solid Waste Management	Explained the policies/ laws related solid waste management				
Importance of solid waste management	Explained the importance of solid waste management in relation to health				

### Rubrics for Food Sanitation

Criteria	Indicator	YES 10	SOMEHOW 5	NO 0	Remarks
Characteristics/ standard of freshness	Discussed all the concepts about characteristics of freshness: <ul style="list-style-type: none"> <li>a. Pork</li> <li>b. Beef</li> <li>c. Chicken</li> <li>d. Fish</li> <li>e. Vegetables</li> <li>f. Fruits</li> <li>g. Canned goods</li> <li>h. Processed foods</li> </ul> Included information about sources of food contamination				
Issues on expiration date	Discussed the difference between expiration date and best before				
Food-borne diseases	Discussed the different food borne disease and its causes				
Laws/ regulations related to food sanitation	Discussed all the steps involved in the approval of food products and food establishments				
Importance of food sanitation	Explained the importance of food sanitation in relation to health				

### Rubrics for Vector Control

Criteria	Indicator	YES 10	SOMEHOW 5	NO 0	Remarks
Common vectors	Discussed all the common vectors being addressed in the Philippines				
	Discussed the important characteristics and nature of common vectors related to its prevention and control				
Prevention and control programs	Discussed the relevant prevention and control programs for vector-borne diseases.				
Vector-borne diseases	Discussed common diseases caused by vectors and their causes				
Importance of Vector control	Explained the importance of vector control in relation to health				

### Rubrics for Environmental Pollution

Criteria	Indicator	YES 10	SOMEHOW 5	NO 0	Remarks
Concepts related to: Air Pollution Land Pollution Water Pollution	Explained the different kinds of environmental pollution that impact health				
Causes of pollution	Discussed the major sources or causes of pollution (Air, Land & Water)				
Effects of Pollution	Discussed all the possible effects/ threat of pollution to health				
Laws/ regulations related to: Air Pollution Land Pollution Water Pollution	Discussed all relevant regulations to control and prevent pollution				
Importance of pollution control	Discussed the importance of pollution control in relation to health				

### Rubrics for Proper Housing

Criteria	Indicator	YES 10	SOMEHOW 5	NO 0	Remarks
Concepts related to Proper Housing	Explained what proper housing is				
Healthy housing	Explained the characteristics of a healthy house				
Importance of proper housing	Relate the importance of proper housing to health				
Standard measurement for adequate housing	Discussed the standard measurement of proper housing in the Philippine context				
Laws/ Policies related to proper housing	Discussed related policies about proper and adequate housing
