VIRTUAL PRIVATE NETWORK (VPN) INSTALLATION

UP Manila VPN (Virtual Private Network) is a way to securely access a remote network. UPM VPN allows eligible individuals to access the University Library e-resources from a non-UPM internet source as if they were directly connected to the campus network.

VISIT VPN PORTAL

Download the client installer (GlobalProtect Agent) from this site:

https://vpn-portal.upm.edu.ph

1

2

GLOBALPROTECT PORTAL LOG-IN
