Methods are clearly described, replicable, and appropriate for the research question. Results Results are clearly presented, logically organized, and suppropriate statistical analyses. Results are believely but may lack some detail or clarity in appropriate statistical analyses. Figures & Tables Figures and tables are elearly labeled, and effectively support the text. Discussion Discussion is insightfut, thoroughly interprets the results, and relates them to the hypothesis and existing literature. References References are comprehensive, relevant, and correctly formatted according to the journal's guidelines. Methods are olearly described and appropriate but may lack some detail. Agaptorpriate but may lack some detail. Results are presented clearly but may lack some detail or clarity. Results are presented but may be confusing, incomplete, or lack appropriate analysis. Making them difficult to interpret. Figures and tables are presented but may be poorly labeled or not full, integrated with the text. Provided the provided them to the hypothesis and existing literature. References are comprehensive, relevant, and correctly formatted according to the journal's guidelines. References are relevant and mostly correctly formatted. References are included but may be incomplete, or poorly formatted. References are relevant but may be poorly labeled or not full, integrated with the text. Effectively. Discussion interprets the results but may be superficial, lacking indepth analysis or relevance to the literature. References are relevant and mostly correctly formatted. References are relevant and mostly correctly formatted. References are included but may be incomplete, or poorly formatted. The paper is well-with may be superficial, lacking indepth analysis or relevant, and correctly formatted. The paper is poorly written, clear, and free of grammatical or typographical errors. The paper is poorly written, unclear, and correctly formatical or typographical errors. Discussion is insigntful, thoroughly interprets the results, and relates them to the hypothesis and existing literature. References References are comprehensive, relevant, and correctly formatted according to the journal's guidelines. Ne paper is well-written, and Writing Discussion is solid, interpreting results well but may be superficial, lacking indepth analysis or relevance to the literature. References are comprehensive, relevant, and correctly formatted according to the journal's guidelines. References are relevant and mostly correctly formatted. References are relevant and mostly correctly formatted. References are included but may be incomplete, irrelevant, or incorrectly formatted. References are missing, incomplete, or poorly formatted. The paper is well-written, clear, and free of grammatical or typographical errors. The paper is understandable but contains several grammatical or typographical errors.	Figures & Tables	well-designed, clearly labeled, and effectively	clear and relevant but may	present but may be poorly labeled or not fully	confusing, poorly labeled, or do not support the text
References References are relevant and mostly correctly formatted according to the journal's guidelines. Neglevant, and correctly formatted, with minor errors. References are relevant and mostly correctly formatted, with minor errors. References are included but may be incomplete, irrelevant, or incorrectly formatted. The paper is understandable but contains several grammatical or typographical errors. The paper is understandable but contains several grammatical or typographical errors. The paper is understandable but contains numerous grammatical or typographical errors.	Discussion	thoroughly interprets the results, and relates them to the hypothesis	interpreting results well but may lack depth or full integration with the	results but may be superficial, lacking in- depth analysis or relevance to the	poor interpretation of results and little connection to the
